YOUR MISSION IS OUR SUCCESS

Company name: InnovaWeb Solutions

Slogan: Your Mission Is our Success

Global Web Agency Based In Singapore

Website: www.innovawebsolutions.org

(website should have a lot of information you need, have a look)

Email: contact@innovawebsolutions.org

We are a leading web agency that helps businesses elevate their online branding and generate leads by building them effective UI/UX friendly websites that help them rank on google and boost revenue.

Onboarding Process:

- 1) Our team will find leads and set appointments
- 2) Once the appointment is set, it is your team's job to close the deal. We will hand you clients from the UK and Singapore, so keep this in mind.
- 3) On the appointment, your team's job is to **close the deal and receive payment from the client**. Present to them our portfolio and do what you need to do to close the deal. We will provide you with appropriate templates you can show them and according to the niche, present these templates.
For example, if we find a car-wash client, our designers will send you a car-wash web design template that you can show along with the rest of our portfolio too.
- 4) After the deal is closed and payment is received, the client should fill up the onboarding form and details of their company. **Your team will be paid 20% commission of the deal closed.**
- 5) After payment, we get into our 4-step working process (*check website services page*). Clients will then hop on a call with our designers and project management team after a few days where we will present to them figma mock-ups we designed and we can edit them to their liking to create the web-design template for their company. Make sure the clients know of this.

- 6) After the template is decided and agreed upon, our team will develop, host and create the website. We will then continue hosting and maintenance at \$60/month (along with web analytics etc).
- 7) Ensure the clients are aware of the onboarding process too.

Faizan, Designer and Developer at InnovaWeb Soltuions:

InnovaWeb Solutions

YOUR MISSION IS OUR SUCCESS

"Faizan is an exceptional developer. I hired him to do both frontend and backend work on a recent project, and he exceeded my expectations in every way. First off, Faizan is incredibly knowledgeable and skilled. He has a deep understanding of both frontend and backend development, and he was able to quickly and easily implement all of my requirements. He is also very creative and resourceful, and he came up with some great solutions to some of the challenges we faced. In addition to his skills, Faizan is also very professional and reliable. He was always responsive to my communication, and he met all of his deadlines. He was also very open to feedback, and he was always willing to make changes to the project until I was completely satisfied. Overall, I am extremely happy with the work that Faizan did for me. He is a truly exceptional developer, and I highly recommend him to anyone looking for a skilled and reliable frontend and backend developer. To put it in a more casual way, Faizan is the man! He knows his stuff, he's easy to work with, and he gets the job done. If you need a frontend or backend developer, I highly recommend him"
